PROFESSIONAL EXPERIENCE

- Successful years involved in facilitating the decisions and assisting in the legal system by working with divorce/child custody cases, a child(ren) who by court ruling has been removed from their home, or a criminal who has been convicted and is required to visit a clinical psychologist on a scheduled time plan each week or each month to assess the persons cognitive and emotional state
- Successful years involved with stages of grief for any type of loss in life and activity, sexual addictions/sex offending, eating disorders and substance addictions, CBT, REBT, and family systems with the ability to provide individual and/or group mental health counseling services to persons
- During successful work as medical and vocational case manager history, have participated in Worker's Compensation and MVA/auto no-fault cases with diagnosis of TBI/CHI, dual diagnosis, spinal cord injury and orthopedic injuries
- Have participated in IEP/IWRP meetings in various roles (counselor, medical case manager and vocational rehabilitation specialist) which allowed the ability to work with all parties involved to create empowerment structures for clients and family members
- High level of skillsets to provide counseling-psychological treatment activities, supervision, and teaching in the areas of university, community college, vocational, adult education and community facilities and programs
- With the skillset of advanced training of patient diversity groups and presenting problems, able to provide evaluations and review of records to establish a chemical dependency diagnosis and possible combined psychiatric diagnosis while utilizing psychotherapy/counseling with a proven rate of effectiveness
- Possess strong critical thinking skills to aid in conducting thorough bio-psychosocial assessments for all levels of the continuum of care by making diagnoses and developing treatment plans inclusive of knowing that the first treatment approach may not always work, so having the ability to have back-up plans and the ability to question what is working and what is not

- Utilizing the experience of 20 years of post-licensure psychotherapy experience, have excellent organizational and clinical documentation skills.
- Advanced and specialized training in the areas of substance abuse/addictions, sexual offending, relationship therapy, rational sex therapy, sentence mitigation, medical psychotherapy and psychometrics
- Maintain certifications and establish new certifications by attending annual ACA/APA Conferences and/or regional and local professional counseling organization workshops and conferences.
- Ability to counsel wide range of individuals at time of significant career, family or educational crisis and, thus assist them to take control and to make decisions that will positively affect their future; and, while instructing students in various programs, assisted in determining a schedule of courses and recommended implementation of additional courses
- Have developed and presented the following seminar lectures-presentations at national conferences, employment in-services, teacher, staff or parent group meetings and in-services, and church groups to address problems including family relations, staff cooperation, community support and problem issues
